

Meerut Institute of Engineering and Technology, Meerut

Department of Computer Science & Engineering

Project Expo. Celebration (04.04.25)
(B.Tech Final Year External Practical Exam)
Session 2024-2025

1. Name of Project: “Oral Cancer Detection System using Machine Learning”

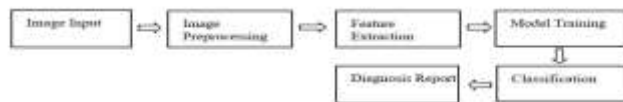

2. Student Names: 1. Aayushi Sharma 2. Aaradhya Masand 3. Aarav Kaim 4. Aashish Kumar

3. Guide Name: Dr. Anurag Aeron

4. Abstract:

1. Develop a machine learning-based system for early of oral cancer using medical imaging.
2. Train the model using TensorFlow and Keras on labeled datasets, applying data augmentation and optimization techniques.
3. Enables early diagnosis, improving patient outcomes and aiding medical professionals in decision-making.

6. Flow chart/ Block diagram:

8. Application:

1. Early Cancer Detection.
2. Medical Diagnosis Assistance.
3. Hospital & Clinical Use

10. References:

1. Stewart, B.W.K.P., Wild, C.P., and others. (2014). World Cancer Report 2014. Public Health.
2. Warnakulasuriya, S. (2009). Global Epidemiology of Oral and Oropharyngeal Cancer. Oral Oncology, 45(4-5), 309–316.

5. Objectives:

1. Identify oral cancer at an early stage to improve treatment outcomes.
2. Provide a non-invasive and efficient screening method for oral cancer.
3. Reduce manual diagnosis effort by using AI-driven image classification.

7. Technology Used:

1. Python
2. TensorFlow & Keras
3. Numpy and Pandas

9. Photographs
